

*******WARNING*******
*******CAUTION*******

BLANKS CAN CAUSE SERIOUS INJURY AND DEATH. This package contains blank loads for use by theatrical professionals following all appropriate safety precautions and procedures. Reasonable care is exercised in the manufacture and the components used are of high quality, but no further responsibility is assumed. Proper procedures include but are not limited to:

- Uses only in correct caliber inscribed on the barrel
- The gun should never be pointed or fired at a person or an animal because of possible injury
- Wear proper hearing and eye protection
- Test all loads to confirm charge size and consistency
- Rotate stock
- Clean weapons after firing

All blank shipments NOW contain a desiccant pack. The desiccant packs should remove atmospheric humidity and keep your blanks in firing conditions for up to 30 days after opening the original packaging. All blanks should be kept in a cool dry storage area. If needed, additional desiccant packs are available at J&M.
