**Le Flame**

We have set a new standard in a totally packaged simulated flame effect. The Le Flame offers an amazingly realistic flames effect with the use of light, air flow and fabric. Attempts at this technology in the past have produced marginal results. The Le Flame has truly mastered all elements to produce an incredible visual effect. The Le Flame is available as a stand-alone kit to be incorporated into any scenic element or combined with the Le Flame hanging bowl or post mounted bowl to create an extremely realistic effect. Whether you are creating unique peripheral lighting or introducing a safe fire effect into a scenic element, the Le Flame is your special effect solution.

The Le Flame comes with our standard One-Year Warranty on all parts and service.
